

EPIC AI Plain-English Onboarding Map V2

Based on the learner's answers, EPIC AI should assign them to:

1. A **learner type**
2. A **primary pathway**
3. A **credential level**
4. A **Mighty plan**
5. The right **course modules**
6. The right **Mighty spaces**
7. Recommended **EPIC AI Labs coaches**
8. A personalized **dashboard welcome message**

The core logic is:

Learner Type + Pathway + Credential Level = Personalized EPIC AI experience.

The Three Full Micro-Credential Pathways

EPIC AI has three full micro-credential pathways.

Full Pathway	Description	Full Credential
Entrepreneurship & Innovation	For learners building startups, ventures, products, business ideas, prototypes, and launch-ready concepts	Entrepreneurship & Innovation Micro-Credential
Social Impact & Sustainability	For learners working on community, social, climate, sustainability, public-good, nonprofit, or impact projects	Social Impact & Sustainability Micro-Credential
Design Thinking for Innovation	For learners building creative confidence, human-centered design skills, innovation methods, and portfolio-ready design work	Design Thinking for Innovation Micro-Credential

Each full micro-credential has:

1. **Discovery Nano**
2. **Build Nano**

3. Full Micro-Credential

This structure works better with Mighty because Mighty controls access at the **Space level**, not the chapter/module level.

Revised Credential Architecture

Entrepreneurship & Innovation

Credential	Modules	Best For
Problem Discovery & Validation Nano	E&I Modules 1, 2, 3	Explorers, Problem Finders, early Idea Builders
Venture Concept & Prototyping Nano	E&I Modules 4, 5, 6	Idea Builders, Prototype Makers, early Founders
Entrepreneurship & Innovation Micro-Credential	E&I Modules 1–10	Founders, full-track learners, institutional cohorts

Social Impact & Sustainability

Credential	Modules	Best For
Social Problem & Systems Discovery Nano	SIS Modules 1, 2, 3	Explorers, Problem Finders, early Changemakers
Impact Model & Pilot Design Nano	SIS Modules 4, 5, 6	Changemakers, Prototype Makers, impact builders
Social Impact & Sustainability Micro-Credential	SIS Modules 1–10	Full-track social impact learners

Design Thinking for Innovation

Credential	Modules	Best For
------------	---------	----------

Human-Centered Discovery Nano	DTI Modules 1, 2, 3	Explorers, Problem Finders, early Creative Innovators
Ideation, Prototyping & Testing Nano	DTI Modules 4, 5, 6	Creative Innovators, Idea Builders, Prototype Makers
Design Thinking for Innovation Micro-Credential	DTI Modules 1–10	Full-track design thinking learners

Seven Learner Types

The seven learner types still remain. They are not the same thing as credentials.

Learner type tells us **how to personalize the experience**.

Credential tells us **what course access they receive**.

Learner Type	Who They Are
Explorer	Not sure yet; wants help finding a meaningful problem or direction
Problem Finder	Has a problem area or rough concern and wants to research/validate it
Idea Builder	Has a rough idea and wants to shape it into a stronger project or concept
Prototype Maker	Knows what they want to build and needs to make/test a first version
Founder	Wants to build, launch, pitch, or grow a venture/startup
Changemaker	Wants to work on social impact, sustainability, community, or systems change
Creative Innovator	Wants design thinking, creativity, human-centered innovation, and portfolio-building

Important: more than one learner type can receive the same Mighty plan.

Example:

- Explorer + Entrepreneurship → Problem Discovery & Validation Nano
- Problem Finder + Entrepreneurship → Problem Discovery & Validation Nano

Same course access, different dashboard language and coach recommendations.

Onboarding Questions

Question 1: Name and Email

Used to save the pathway and send access.

Question 2: What kind of EPIC pathway are you most interested in?

Single select.

Options:

1. Entrepreneurship & Innovation
2. Social Impact & Sustainability
3. Design Thinking for Innovation
4. I'm not sure yet — help me choose

This is the main pathway-routing question.

Question 3: What do you want to build or work on?

Select all that apply.

Options:

1. A startup or business idea
2. An app, tool, or digital product
3. A social impact project
4. A sustainability or climate project
5. A creative or community project
6. A school or program project
7. I'm not sure yet — help me explore

This helps refine learner type.

Question 4: Where are you on your journey?

Single select.

Options:

1. I'm just exploring
2. I have a rough idea
3. I already know what I want to build
4. I'm already working on something
5. I'm joining because my school/program invited me

This determines where they start.

Question 5: What kind of support would help you most?

Select all that apply.

Options:

1. Coming up with a strong idea
2. Researching a problem, user, market, or system
3. Turning an idea into a project plan
4. Building a prototype or first version
5. Designing an impact or sustainability model
6. Getting feedback from AI coaches
7. Preparing a pitch, presentation, or portfolio piece

This determines recommended modules, coaches, and dashboard first action.

Question 6: How do you like to learn?

Select all that apply.

Options:

1. Short readings and guides
2. Videos and walkthroughs

3. Audio or podcast-style lessons
4. AI coach conversations
5. Working with other students
6. Hands-on challenges and deliverables

This does not decide the pathway. It personalizes dashboard recommendations.

Question 7: How much time do you want to spend each week?

Single select.

Options:

1. Less than 1 hour/week
2. 1–3 hours/week
3. 3–5 hours/week
4. 5+ hours/week

This helps decide whether they should start with a mini challenge, nano, or full micro-credential.

High-Level Routing Rules

Rule 1: Pathway interest comes first

If they choose **Entrepreneurship & Innovation**, they should usually go into the Entrepreneurship pathway.

If they choose **Social Impact & Sustainability**, they should usually go into the Social Impact pathway.

If they choose **Design Thinking for Innovation**, they should usually go into the Design Thinking pathway.

If they say **I'm not sure yet**, use project intent and journey stage to recommend the best starting pathway.

Rule 2: Journey stage decides credential level

Answer	What It Means	Recommended Level
I'm just exploring	They need discovery	Discovery Nano
I have a rough idea	They need validation, research, and shaping	Discovery Nano or Build Nano
I already know what I want to build	They need concept development/prototyping	Build Nano
I'm already working on something	They may need prototyping, business model, pitch, or implementation	Build Nano or Full Micro
My school/program invited me	Institution route comes first	Assigned program pathway

Rule 3: Weekly time decides how much to recommend first

Weekly Time	Recommendation
Less than 1 hour/week	Mini challenge or very light start
1–3 hours/week	Nano-credential
3–5 hours/week	Build Nano or Micro candidate
5+ hours/week	Full micro-credential

A learner can be ambitious but time-limited. Do not overload them.

Example:

A Founder with only 1–3 hours/week may start with **Venture Concept & Prototyping Nano**, not the full Entrepreneurship & Innovation Micro-Credential.

Rule 4: Program invitation overrides generic routing

If a learner joins because a school/program invited them, assign them to the program's plan and cohort space first.

You can still show their learner type for personalization.

Example:

You are an Idea Builder joining the Temple Summer Innovation Cohort.

Entrepreneurship & Innovation Plans

1. Problem Discovery & Validation Nano Plan

Who gets it

- Explorers interested in Entrepreneurship
- Problem Finders interested in Entrepreneurship
- Learners who are just exploring
- Learners who have a rough idea but need validation
- Learners with 1–3 hours/week who need a focused start

Gives access to

- Start Here
- Help & Access Support
- EPIC AI Labs Access
- Explorer Studio
- Problem Validation Lab
- Problem Discovery & Validation Nano course space
- Project Showcase

Course modules

- E&I Module 1: Problem Discovery and Definition
- E&I Module 2: Problem Validation
- E&I Module 3: Stakeholder Research and Systems Mapping

Main coaches

- C.A.S.E. Coach
 - Problem Validation Coach
 - Stakeholder Interview Simulator
 - User Persona Design Coach
 - Reflection / PSQ Coach
-

2. Venture Concept & Prototyping Nano Plan

Who gets it

- Idea Builders interested in Entrepreneurship
- Prototype Makers interested in Entrepreneurship
- Learners who already know what they want to build
- Learners building an app, tool, product, or business concept
- Learners with 3–5 hours/week who are not ready for full micro

Gives access to

- Start Here
- Help & Access Support
- EPIC AI Labs Access
- Idea Builder Studio
- Prototype Lab
- Venture Concept & Prototyping Nano course space - venture concept & prototyping nano course.
- Project Showcase

Course modules

- E&I Module 4: Creative Opportunity Discovery
- E&I Module 5: Venture Concept Development
- E&I Module 6: Prototyping

Recommended bridge lesson:

- 15-Minute Validation Check

Main coaches

- Creative Lateral Thinking Coach
- Venture Concept Coach
- Prototype Coach

- User Testing Coach
 - User Persona Design Coach
 - Reflection / PSQ Coach
-

3. Entrepreneurship & Innovation Micro Plan

Who gets it

- Founders
- Learners choosing the full Entrepreneurship & Innovation pathway
- Learners with 5+ hours/week
- Institutional cohorts assigned to the full entrepreneurship pathway

Gives access to

- Start Here
- Help & Access Support
- EPIC AI Labs Access
- Founder Track
- Idea Builder Studio
- Prototype Lab
- Entrepreneurship & Innovation Micro-Credential course space
- Project Showcase
- Pitch & Portfolio Showcase

Course modules

- E&I Module 1: Problem Discovery and Definition
- E&I Module 2: Problem Validation
- E&I Module 3: Stakeholder Research and Systems Mapping
- E&I Module 4: Creative Opportunity Discovery
- E&I Module 5: Venture Concept Development
- E&I Module 6: Prototyping
- E&I Module 7: Business Model / Market Segmentation
- E&I Module 8: Brand, Mission, and Story
- E&I Module 9: Finance and Legal 101
- E&I Module 10: Pitch and Launch

Main coaches

- C.A.S.E. Coach
- Problem Validation Coach

- Stakeholder Interview Simulator
 - Creative Lateral Thinking Coach
 - Venture Concept Coach
 - Prototype Coach
 - Business Model Designer
 - Market Research Coach
 - Beachhead / Segmentation Coach
 - Brand & Mission Coach
 - Finance & Legal Basics Coach
 - Pitch Coach
 - Launch Readiness Coach
 - Reflection / PSQ Coach
-

Social Impact & Sustainability Plans

1. Social Problem & Systems Discovery Nano Plan

Who gets it

- Explorers interested in Social Impact
- Problem Finders interested in Social Impact
- Early Changemakers
- Learners focused on community, climate, sustainability, or systems issues
- Learners who need to understand the issue before designing an intervention

Gives access to

- Start Here
- Help & Access Support
- EPIC AI Labs Access
- Explorer Studio
- Problem Validation Lab
- Impact Studio
- Social Problem & Systems Discovery Nano course space
- Project Showcase

Course modules

- SIS Module 1: Social Problem Discovery
- SIS Module 2: Community Problem Validation

- SIS Module 3: Stakeholder and Systems Mapping

Main coaches

- Social Problem Framing Coach
 - C.A.S.E. Coach
 - Systems Mapping Coach
 - Community Stakeholder Coach
 - SDG Mapping Chatbot
 - Reflection / PSQ Coach
-

2. Impact Model & Pilot Design Nano Plan

Who gets it

- Changemakers ready to design an intervention
- Prototype Makers working on an impact project
- Learners designing a nonprofit, social enterprise, community project, or sustainability initiative
- Learners focused on pilot design or social business execution

Gives access to

- Start Here
- Help & Access Support
- EPIC AI Labs Access
- Impact Studio
- Prototype Lab
- Impact Model & Pilot Design Nano course space
- Project Showcase

Course modules

- SIS Module 4: SDG and Sustainability Alignment
- SIS Module 5: Impact Model Design
- SIS Module 6: Social Business / Intervention Design

Recommended bridge lesson:

- Community Evidence Check

Main coaches

- SDG Mapping Chatbot
 - Social Business Execution Canvas Coach
 - Impact Measurement Coach
 - Sustainability Strategy Coach
 - Partnership & Ecosystem Coach
 - Reflection / PSQ Coach
-

3. Social Impact & Sustainability Micro Plan

Who gets it

- Changemakers choosing the full Social Impact & Sustainability pathway
- Learners with 5+ hours/week
- Institutional cohorts assigned to the full social impact pathway
- Advanced social innovators working toward implementation/pitch

Gives access to

- Start Here
- Help & Access Support
- EPIC AI Labs Access
- Impact Studio
- Social Impact & Sustainability Micro-Credential course space
- Project Showcase
- Pitch & Portfolio Showcase

Course modules

- SIS Module 1: Social Problem Discovery
- SIS Module 2: Community Problem Validation
- SIS Module 3: Stakeholder and Systems Mapping
- SIS Module 4: SDG and Sustainability Alignment
- SIS Module 5: Impact Model Design
- SIS Module 6: Social Business / Intervention Design
- SIS Module 7: Pilot and Partnership Strategy
- SIS Module 8: Impact Measurement
- SIS Module 9: Sustainability and Scale Strategy
- SIS Module 10: Impact Pitch and Implementation Plan

Main coaches

- Social Problem Framing Coach

- Systems Mapping Coach
 - Community Stakeholder Coach
 - Ethical Impact Coach
 - SDG Mapping Chatbot
 - Social Business Execution Canvas Coach
 - Impact Measurement Coach
 - Sustainability Strategy Coach
 - Partnership & Ecosystem Coach
 - Impact Pitch Coach
 - Reflection / PSQ Coach
-

Design Thinking for Innovation Plans

1. Human-Centered Discovery Nano Plan

Who gets it

- Explorers interested in Design Thinking
- Problem Finders interested in Design Thinking
- Early Creative Innovators
- Learners who want empathy, research, insight, and problem reframing

Gives access to

- Start Here
- Help & Access Support
- EPIC AI Labs Access
- Explorer Studio
- Problem Validation Lab
- Creative Innovation Studio
- Human-Centered Discovery Nano course space
- Project Showcase

Course modules

- DTI Module 1: Creative Confidence and Problem Awareness
- DTI Module 2: Empathy and Human-Centered Research
- DTI Module 3: Insight Synthesis

Main coaches

- Design Challenge Framing Coach
 - Empathy Research Coach
 - Insight Synthesis Coach
 - User Persona Design Coach
 - Creative Confidence Coach
 - Reflection / PSQ Coach
-

2. Ideation, Prototyping & Testing Nano Plan

Who gets it

- Creative Innovators ready to generate and test ideas
- Idea Builders in the design thinking pathway
- Prototype Makers in the design thinking pathway
- Learners preparing portfolio-ready design work

Gives access to

- Start Here
- Help & Access Support
- EPIC AI Labs Access
- Creative Innovation Studio
- Idea Builder Studio
- Prototype Lab
- Ideation, Prototyping & Testing Nano course space
- Project Showcase

Course modules

- DTI Module 4: Reframing and How Might We Questions
- DTI Module 5: Ideation and Concept Development
- DTI Module 6: Prototyping and Testing

Recommended bridge lesson:

- Insight-to-Idea Check

Main coaches

- Creative Lateral Thinking Coach
- Ideation Coach
- Concept Selection Coach

- Prototype Planning Coach
 - User Testing Coach
 - Storyboarding Coach
 - Reflection / PSQ Coach
-

3. Design Thinking for Innovation Micro Plan

Who gets it

- Creative Innovators choosing the full Design Thinking pathway
- Learners with 5+ hours/week
- Institutional cohorts assigned to the full design thinking pathway
- Learners preparing portfolio-ready design/innovation work

Gives access to

- Start Here
- Help & Access Support
- EPIC AI Labs Access
- Creative Innovation Studio
- Prototype Lab
- Design Thinking for Innovation Micro-Credential course space
- Project Showcase
- Pitch & Portfolio Showcase

Course modules

- DTI Module 1: Creative Confidence and Problem Awareness
- DTI Module 2: Empathy and Human-Centered Research
- DTI Module 3: Insight Synthesis
- DTI Module 4: Reframing and How Might We Questions
- DTI Module 5: Ideation and Concept Development
- DTI Module 6: Prototyping and Testing
- DTI Module 7: Feedback, Iteration, and Learning Loops
- DTI Module 8: Storyboarding and Experience Design
- DTI Module 9: Innovation Storytelling
- DTI Module 10: Portfolio and Final Design Challenge

Main coaches

- Design Challenge Framing Coach
- Empathy Research Coach

- Insight Synthesis Coach
 - Ideation Coach
 - Concept Selection Coach
 - Prototype Planning Coach
 - User Testing Coach
 - Storyboarding Coach
 - Creative Confidence Coach
 - Innovation Portfolio Coach
 - Reflection / PSQ Coach
-

Pathway Map by Learner Type

1. Explorer

Typical answers

They may answer:

- “I’m not sure yet — help me choose”
- “I’m not sure yet — help me explore”
- “I’m just exploring”
- “Coming up with a strong idea”
- Less than 1 hour/week or 1–3 hours/week

Recommended pathway

Depends on selected pathway interest.

If They Lean Toward	Recommend
Entrepreneurship	Problem Discovery & Validation Nano Plan
Social Impact	Social Problem & Systems Discovery Nano Plan
Design Thinking	Human-Centered Discovery Nano Plan
Still unclear	Start with Problem Discovery & Validation Nano Plan or ask them to choose a pathway focus

Mighty spaces

- Start Here
- Explorer Studio
- EPIC AI Labs Access
- Help & Access Support
- Project Showcase
- Pathway-specific Discovery Nano course space

EPIC AI Labs coaches

Feature first:

- C.A.S.E. Coach
- Creative Lateral Thinking Coach
- Problem Framing Coach
- Reflection / PSQ Coach

Pathway-specific additions:

- Social Impact: Social Problem Framing Coach, SDG Mapping Chatbot
- Design Thinking: Design Challenge Framing Coach, Creative Confidence Coach

Dashboard welcome copy

Welcome, [Name]. You are an Explorer.

You are not behind. You are at the beginning of the most important part: finding a problem worth your time.

Your EPIC pathway starts with discovery. You will learn how to notice better problems, define them clearly, and choose a direction that feels meaningful enough to explore.

Start here: Discovery Nano

First challenge: Find 3 problems worth exploring

Recommended coach: C.A.S.E. Coach

Community space: Explorer Studio

2. Problem Finder

Typical answers

They may answer:

- “I have a rough idea”
- “Researching a problem, user, market, or system”
- “Getting feedback from AI coaches”
- “A social impact project”
- “A creative or community project”
- “I want to understand the problem before building”

Recommended pathway

Problem Finder can belong to any of the three pathways.

If Primary Interest Is

Recommend

Entrepreneurship

Problem Discovery & Validation Nano Plan

Social Impact

Social Problem & Systems Discovery Nano Plan

Design Thinking

Human-Centered Discovery Nano Plan

Mighty spaces

- Start Here
- Problem Validation Lab
- EPIC AI Labs Access
- Help & Access Support
- Project Showcase
- Pathway-specific Discovery Nano course space

If social impact:

- Impact Studio

If design thinking:

- Creative Innovation Studio

EPIC AI Labs coaches

Feature first:

- C.A.S.E. Coach
- User Persona Design Coach
- Stakeholder Interview Simulator
- Problem Validation Coach
- Systems Mapping Coach

- Reflection / PSQ Coach

Pathway-specific additions:

- Social Impact: SDG Mapping Chatbot, Community Stakeholder Coach
- Design Thinking: Empathy Research Coach, Insight Synthesis Coach

Dashboard welcome copy

Welcome, [Name]. You are a Problem Finder.

You are doing something many people skip: slowing down before jumping to a solution.

Your EPIC pathway will help you understand the problem, listen to stakeholders, identify assumptions, and gather evidence before deciding what to build.

Start here: Discovery Nano

First challenge: Gather evidence that the problem is real

Recommended coach: Stakeholder Interview Simulator

Community space: Problem Validation Lab

3. Idea Builder

Typical answers

They may answer:

- “Entrepreneurship & Innovation”
- “A startup or business idea”
- “I have a rough idea”
- “Turning an idea into a project plan”
- “Coming up with a strong idea”

Recommended pathway

Usually:

- Entrepreneurship & Innovation

Could also be:

- Design Thinking for Innovation, if they selected design/creative pathway

Recommended plan

If Primary Interest Is

Recommend

Entrepreneurship	Venture Concept & Prototyping Nano Plan
Design Thinking	Ideation, Prototyping & Testing Nano Plan
Social Impact	Impact Model & Pilot Design Nano Plan, if idea is impact-oriented

Mighty spaces

- Start Here

- Pathway-specific Build Nano course space

If design thinking:

- Creative Innovation Studio

If social impact:

- Impact Studio

EPIC AI Labs coaches

Feature first:

- Creative Lateral Thinking Coach
- Venture Concept Coach
- User Persona Design Coach
- Project Planning Coach
- Reflection / PSQ Coach

Pathway-specific additions:

- Entrepreneurship: Market Research Coach, Beachhead / Segmentation Coach
- Social Impact: Social Business Execution Canvas Coach, Impact Measurement Coach
- Design Thinking: Ideation Coach, Concept Selection Coach

Dashboard welcome copy

Welcome, [Name]. You are an Idea Builder.

You already have a spark. Now EPIC will help you sharpen it, test it, and turn it into a stronger concept.

Your next step is not to make the idea sound impressive. Your next step is to make it clearer, more useful, and more grounded in real human needs.

Start here: Build Nano

First challenge: Complete your concept card or project plan

Recommended coach: Creative Lateral Thinking Coach

Community space: Idea Builder Studio

4. Prototype Maker

Typical answers

They may answer:

- “An app, tool, or digital product”
- “I already know what I want to build”
- “I’m already working on something”
- “Building a prototype or first version”
- “Hands-on challenges and deliverables”

Recommended pathway

Could be any of the three pathways.

If Primary Interest Is	Recommend
Entrepreneurship	Venture Concept & Prototyping Nano Plan
Social Impact	Impact Model & Pilot Design Nano Plan
Design Thinking	Ideation, Prototyping & Testing Nano Plan

Mighty spaces

- Start Here
- Prototype Lab
- EPIC AI Labs Access
- Help & Access Support

If advanced:

- Pitch & Portfolio Showcase

EPIC AI Labs coaches

Feature first:

- Prototype Coach
- User Persona Design Coach
- Venture Concept Coach
- User Testing Coach
- Reflection / PSQ Coach

Pathway-specific additions:

- Entrepreneurship: Venture Concept Coach, Market Research Coach
- Social Impact: Social Business Execution Canvas Coach, Impact Measurement Coach
- Design Thinking: Prototype Planning Coach, User Testing Coach, Storyboarding Coach

Dashboard welcome copy

Welcome, [Name]. You are a Prototype Maker.

You are ready to stop explaining the idea and start making it real enough for someone to react to.

Your EPIC pathway will help you choose the right kind of prototype, test one risky assumption, and learn from feedback without overbuilding.

Start here: Build Nano

First challenge: Build one testable prototype

Recommended coach: Prototype Coach

Community space: Prototype Lab

5. Founder

Typical answers

They may answer:

- “Entrepreneurship & Innovation”
- “A startup or business idea”
- “I’m already working on something”
- “Preparing a pitch, presentation, or portfolio piece”
- “3–5 hours/week”
- “5+ hours/week”

Recommended pathway

Usually:

- Entrepreneurship & Innovation

Recommended plan

Situation	Recommend
1–3 hours/week	Venture Concept & Prototyping Nano Plan
3–5 hours/week	Venture Concept & Prototyping Nano Plan or Entrepreneurship Micro Plan
5+ hours/week	Entrepreneurship & Innovation Micro Plan
Institution-assigned full track	Entrepreneurship & Innovation Micro Plan

Mighty spaces

- Start Here
- Founder Track
- EPIC AI Labs Access
- Help & Access Support
- Project Showcase
- Pitch & Portfolio Showcase

If assigned to nano:

- Idea Builder Studio
- Prototype Lab

If assigned to micro:

- Entrepreneurship & Innovation Micro-Credential course space

EPIC AI Labs coaches

Feature first:

- Business Model Designer
- Market Research Coach
- Beachhead / Segmentation Coach
- Venture Concept Coach
- Prototype Coach
- Brand & Mission Coach
- Finance & Legal Basics Coach
- Pitch Coach
- Launch Readiness Coach
- Reflection / PSQ Coach

Dashboard welcome copy

Welcome, [Name]. You are a Founder.

You are building toward launch, traction, pitch readiness, and a venture story others can believe in.

Your EPIC pathway will help you pressure-test your assumptions, strengthen your business model, build proof, and communicate your venture clearly.

Start here: Venture Snapshot or Entrepreneurship Micro-Credential

First challenge: Build a one-page venture snapshot

Recommended coach: Business Model Designer or Pitch Coach

Community space: Founder Track

6. Changemaker

Typical answers

They may answer:

- “Social Impact & Sustainability”
- “A social impact project”
- “A sustainability or climate project”
- “A creative or community project”
- “Researching a problem, user, market, or system”
- “Designing an impact or sustainability model”
- “Preparing a pitch, presentation, or portfolio piece”

Recommended pathway

Usually:

- Social Impact & Sustainability

Recommended plan

Situation	Recommend
Just exploring / needs research	Social Problem & Systems Discovery Nano Plan
Ready to design an intervention	Impact Model & Pilot Design Nano Plan
5+ hours/week / full pathway	Social Impact & Sustainability Micro Plan
Institution-assigned full track	Social Impact & Sustainability Micro Plan

Mighty spaces

Feature first:

- Social Problem Framing Coach
- SDG Mapping Chatbot
- Systems Mapping Coach
- Community Stakeholder Coach
- Ethical Impact Coach
- Social Business Execution Canvas Coach
- Impact Measurement Coach
- Sustainability Strategy Coach
- Partnership & Ecosystem Coach
- Impact Pitch Coach
- Reflection / PSQ Coach

Dashboard welcome copy

Welcome, [Name]. You are a Changemaker.

You are here to understand a real-world problem and design something that creates meaningful progress for people, communities, or systems.

Your EPIC pathway will help you move beyond good intentions into evidence, stakeholder understanding, systems thinking, and practical impact design.

Start here: Social Impact pathway

First challenge: Map the people, systems, and constraints around your issue

Recommended coach: SDG Mapping Chatbot or Systems Mapping Coach

Community space: Impact Studio

7. Creative Innovator

Typical answers

They may answer:

- “Design Thinking for Innovation”
- “A creative or community project”
- “Coming up with a strong idea”
- “Researching a problem, user, market, or system”
- “Preparing a portfolio piece”
- “Hands-on challenges and deliverables”

Recommended pathway

Usually:

- Design Thinking for Innovation

Recommended plan

Situation	Recommend
Just exploring / needs research	Human-Centered Discovery Nano Plan
Ready to ideate, prototype, or test	Ideation, Prototyping & Testing Nano Plan

5+ hours/week / full pathway

Design Thinking for Innovation Micro Plan

Institution-assigned full track

Design Thinking for Innovation Micro Plan

Feature first:

- Design Challenge Framing Coach
- Empathy Research Coach
- Insight Synthesis Coach
- Ideation Coach
- Concept Selection Coach
- Prototype Planning Coach
- User Testing Coach
- Storyboarding Coach
- Creative Confidence Coach
- Innovation Portfolio Coach
- Reflection / PSQ Coach

Dashboard welcome copy

Welcome, [Name]. You are a Creative Innovator.

You are here to build creative confidence, understand people more deeply, and turn messy problems into thoughtful design opportunities.

Your EPIC pathway will help you move from curiosity to insight, from insight to ideas, and from ideas to testable concepts.

Start here: Design Thinking pathway

First challenge: Frame one problem as a design challenge

Recommended coach: Design Challenge Framing Coach

Community space: Creative Innovation Studio

Learner Type	Typical Answers	Pathway	Mighty Plan	Module Access	EPIC AI Labs Coaches	Dashboard Message
Explorer	Unsure, just exploring, needs idea help	Depends on interest	Pathway-specific Discovery Nano	Modules 1–3 of selected pathway	C.A.S.E., Creative Lateral Thinking, Problem Framing, PSQ Reflection	“You are not behind. Start by finding a problem worth exploring.”
Problem Finder	Rough idea, needs research/validation	Any of three pathways	Pathway-specific Discovery Nano	Modules 1–3 of selected pathway	Stakeholder Simulator, User Persona, Problem Validation, Systems Mapping	“Slow down before building. Gather evidence first.”
Idea Builder	Rough idea, needs concept/project plan	Entrepreneurship, Design Thinking, or Social Impact	Pathway-specific Build Nano	Modules 4–6 of selected pathway	Creative Lateral Thinking, Venture/Concept Coach, User Persona, Project Planning	“You have a spark. Now shape it into a stronger concept.”

Prototype Maker	Knows what to build, wants first version	Any of three pathways	Pathway-specific Build Nano	Modules 4–6 of selected pathway	Prototype Coach, User Testing, Persona, Impact/Business coach if needed	“Make it real enough for someone to react to.”
Founder	Startup, already working, pitch/launch interest	Entrepreneurship & Innovation	E&I Micro or E&I Build Nano	E&I Modules 1–10 or Modules 4–6	Business Model, Market Research, Pitch, Finance/Legal, Launch	“Build toward launch, traction, and a venture story.”
Changemaker	Social impact, sustainability, community, impact model	Social Impact & Sustainability	SIS Micro or SIS Build Nano	SIS Modules 1–10 or Modules 4–6	SDG Mapping, Systems Mapping, Social Business, Impact Measurement	“Move beyond good intentions into evidence and impact design.”
Creative Innovator	Design thinking, creative/community, portfolio	Design Thinking for Innovation	DTI Micro or DTI Build Nano	DTI Modules 1–10 or Modules 4–6	Design Challenge, Empathy Research, Ideation, User Testing, Portfolio	“Turn curiosity into insight and insight into testable concepts.”
Program Learner	School/program invited	Program-assigned	Program Cohort Plan	Assigned by institution	Based on assigned modules	“Your program has selected a guided EPIC

pathway
for you.”
